

# Covid-19 Guidelines for Temporary Foreign Workers Returning Home

## Mexico

Due to COVID-19, the Government of Mexico has put in place a number of requirements for all travelers entering the country, including returning citizens. Please review the requirements below.

### Mandatory Questionnaire

There is a [QUESTIONNAIRE OF IDENTIFICATION OF RISK FACTORS IN TRAVELERS](#) that must be filled out by all passengers flying to Mexico.

It is advised that workers be given the questionnaire prior to travelling.

### Report by Phone (SAWP ONLY)

Upon their return to Mexico, SAWP workers will need to report back to their local Ministry of Labour office by phone first to schedule an appointment. If the office is closed, they can complete their reporting (on the employer) by phone.

## Nicaragua

All incoming (Nicaraguans or foreigners) must have covid-19 negative test results valid within 72 hrs of departure - proof has to be provided by airlines in advance to INAC for flight approvals.

**As information from other countries become available, updates will be provided.**
