Bee Maid Honey Limited is a Cooperative owned honey producer and processor with locations in Winnipeg, Manitoba and Spruce Grove, Alberta. Not many food companies in

Canada have a story like Bee Maid's. It all began in the 1950s, when a few innovative beekeepers had a dream to form an organization allowing them to sell their high quality Canadian honey throughout the world. Today, over 300 Western Canadian beekeepers own BeeMaid, and those beekeepers currently harvest almost 30% of all the honey produced in Canada.

The heart of BeeMaid is its iconic brand that has been a leading Canadian brand for decades. Each domestic bottle proudly features the faces of their owner beekeepers and contains only 100% Canadian honey. To meet international consumer needs, they also have wide mouth, premium packaging prominently featuring the Canadian maple leaf. To meet all consumer tastes, Bee Maid offers honey in a variety of formats: pasteurized liquid and creamed, unpasteurized liquid and creamed, raw and premium clover.

Bee Maid's two packing plants are continuously abuzz packing honey for most major grocery chains in Canada. They also pack for leading food service distributors and many known Canadian food manufacturers. Their packed and raw honey is also shipped worldwide to locations like Korea, Japan, United States and the Caribbean. Bee Maid has its own blow mold facility allowing them to customize packaging to meet their customer's needs.

Quality is always on the forefront at Bee Maid and their commitment to quality is second to none. Bee Maid is CFIA, SQF, HACCP and True Source Certified. All international inquiries welcome!

BEARY BERRY HONEY Alberta

Contact: Sandra Thiessen

+1.780.662.3577 sales@bearyberryhoney.com

bearyberryhoney.com

Products: Bulk raw honey. Honey in retail size containers

Capacity (container loads): 1-10+

Beary Berry Honey produces flavored honeys, glazes and vinaigrettes from their Alberta apiary. Our Alberta produced honey is blended with real fruit and spices to make a fantastic, healthy spread or sweetener for your hot beverages. We are certified by the Canadian Food Inspection Agency and currently produce 18 different flavours of honey. Our facility and products are gluten-free and dairy-free, and we have processes in place to prevent cross-contamination.

Our products are available in 300 gram glass jars and come in cases of 12. Minimum order for export would be one pallet (1,200 jars). Private Labeling is an option based on volume. We also sell raw honey to a packer in drums.

2015 Winner of the Export Awards Alberta.

GOOD MORNING HONEY LTD Alberta

Contact: Richard Ozero

+1.780.257.9060 albertahoney@gmail.com www.goodmorninghoney.ca

Products: Bulk Honey Capacity (container loads): 1-10+

Good Morning Honey is family owned and operated. We are located near Stony Plain in Parkland County, Alberta. Our apiaries cover a diverse area of natural land and farms just west of the capital city of Edmonton.

Good Morning Honey produces some of the world's finest honey enjoyed by many across North America as well as Asia and Europe.

Good Morning Honey Ltd. produces 100% Canadian honey. Our protocols ensure the safest, most pure honey is gently removed from the beehives by hand then harvested and packaged in our extraction facility. The honey is not pasteurized, letting it remain in its raw, natural form, just as the bees made it.

BUSY BEE FARM LTD Alberta

Contact: Mike deJong

+1.780.995.8814 busybee@telus.net www.busybeefarm.ca

Products: Bulk Honey Capacity (container loads): 1-10+

Busy Bee Farm commercially produces honey and provides pollination services. Our honey is naturally sourced from the farms and fields of Alberta's landscape, and is the product of happy and healthy bees that pollinate Alberta crops and native plants.

With compassion and respect for the people and the land in where Busy Bee Farm's hives are placed, important relationships

are cultivated across the province. It is with this passion and devotion that Busy Bee Farm produces an honest natural honey product and provides a high quality pollination service.

Having 20 years experience and an active member in the Alberta Beekeepers Commission, Busy Bee Farm is proud to work with surrounding community farmers to bring them the bees that help maximize various crop yields and enhance the general ecosystem.

Golden Acres Honey/McKenzie Country Farm Honey has gained a reputation for producing some of Canada's finest honey. Our natural and healthy products combined with personal, friendly service and integrity ensure customer satisfaction, which is key to our continued success.

Our honey is a product of both the beautiful and natural environment where it's cultivated, and the caring and conscientious Three Hills, Alberta workers. However, at the foundation of our quality honey are the bees that roam the Albertan wildflowers to produce it.

Golden Acres Honey was started in the mid 1980's and continues to be a family-run operation. McKenzie's Country Farm Honey was purchased in 2001.

Products: Bulk Honey

Capacity (container loads): 1-10+

Gilbert Wolfe has always been sweet on bees. As a child, he spent hours observing honeybees in the fields of northern Alberta where he grew up. His first summer job was extracting honey for a local beekeeper. When he was sixteen, Gilbert convinced his father to buy him fifty beehives. Countless stings later, Gilbert extracted his first honey crop in an old granary and a beekeeping business was born.

We extract, process and package thousands of pounds of organic honey each year at our family-run apiary in Guy, Alberta. At every step, our focus is on preserving the pure, natural goodness of honey. We've been certified organic for over 20 years, and recently became the first apiary in Canada to be certified as non-GMO. Peace River Honey is our family's labour of love and we are thrilled to share it with pure-food enthusiasts around the world.

If you have wholesale or retail inquiries – or questions or comments about our honey, please don't hesitate to contact us. We're always up for sweet talk.

dmeastman@shaw.ca

CJ@pj.apiaries.honey

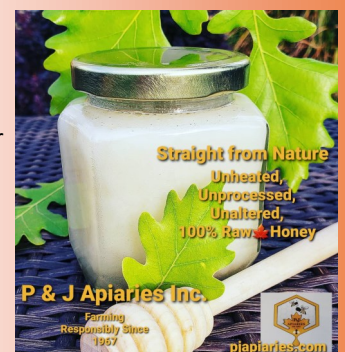

Products: Bulk Honey and Raw Beeswax Capacity (container loads)- 1-10+

P & J Apiaries Inc. is a family farm that has been farming honey responsibly since 1967. Our mission is to produce the highest quality of honey to be enjoyed by everyone alongside the meticulous care of our honey bees. Our honey can be defined as white or extra-white 'blossom-multifloral' honey denoting sweet, bloomy, fresh, herbal flavors derived from a variety of local nectar sources found throughout the Westlock and Thordild Counties in Alberta. Our safe food handling protocols align with CBISQT the Canadian Bee Industry Safety Quality Traceability program, focusing on Biosecurity, safety, hygiene, and traceability. Bulk Sales include CFIA/FDA approved steel drums as part of our company Safe Food Handling protocol.

Our processing system has the ability to offer homogeneous-blended 'lots' of honey presenting with consistent color and moisture targets to optimize best quality control of our honey. In addition, every 10 drums produced is sampled in house for color and moisture and retained in our records so we have a good understanding of inventory quality throughout the harvest season.

Over 50 years of sustainable beekeeping, and harmonious practices with nature and our local community equate to a highly trusted pure honey product.

SPIRIT HILLS LTD Alberta

Contact: Hugo Bonjean

+1.403.933.3913 hugo@spirithillswinery.com
www.spirithillswinery.com

Products: Honey Wine

Spirit Hills crafts the highest quality of food pairing wines with local ingredients and a Alberta Rocky Mountain identity. Unlike traditional meads, a good quality food-pairing honey wine has a similar acidity and PH than grape wine. It also has body, complexity, structure and length. The Spirit Hills honey wines offer all that in a well balanced way with a lingering velvety smooth finish. They are served in fine dining restaurants in Canada, Japan and Europe. The winemakers at Spirit Hills layer the different flavour elements into the wine by choosing local ingredients like rosehips or black currants for acidity, wildflower honey for structure and oak or flowers in the finish. Spirit Hills honey wines are simply: One of a Kind!

"The way Spirit Hills manages to craft such structure and balance with flowers, honey and berries is impressive."

Éric Beaumard, winner of best sommelier in France and Europe, and vice-champion sommelier of the world. Fine dining manager, Hôtel George V

WORKER BEE HONEY COMPANY Alberta

Contact: Peter Awram

+1.604.794.331s peter@workerbeehoney.ca

www.workerbeehoney.ca

Products: Bulk Honey Capacity (container loads): 1-10+

Worker Bee Honey Company is a family-run business operating since 1970 in Alberta and British Columbia. In southern BC we pollinate blueberries and raspberries. After these flowers are finished, the bees collect honey from the wild blackberries before being transported to the Canadian prairies for summer flowers such as Alfalfa, Clover and Canola. All honey is separated by floral source before extraction to provide the unique flavours that come from the different floral source.

All honey comes with a Bruker NMR Honey Screener authenticity report.

We also provide raw beeswax in solid block or crumble form.

Products: 100% Pure Canadian Honey, bulk beeswax, refined beeswax, propolis, pollen, nucleus colonies

Capacity (container loads): 10+

We are a second generation beekeeping operation operated by a team of brothers. We have grown to approximately 4,000 hives, located in the heart of the Canadian prairies where our honeybees produce a beautiful light-colored, floral flavored, honey.

Lalonde Honey Farms consistently produces exceptionally light honey, sourced from canola, alfalfa, clover and various wildflowers. Our honey is never heated above 95 degrees F to maintain the integrity of the natural, raw honey and our tracability program allows every lot of honey to be sourced back to a few, individual beeyards where the honey was produced. The health of our honeybees is top-of-mind, and our team consistently monitors our honeybees to provide them optimum care.

Bees, Honey, Bee Equipment, Wax Both - 1 container

The Hamilton Family has been keeping bees for 8 generations, 4 of those in Canada. We produce high quality honey with minimal heat and processing. We raise and sell bees using high end stock our family has selected and bred from over decades.

Golden West Enterprises

Contact Information:

Lester Martens or Katie Menzies 306-230-5688 lesmartens628@gmail.com

This is a family run business located in West Central Saskatchewan. We have been keeping bees for over 25 years. Our bee stock started as Italians and we were one of the first to introduce the Russian stock. After that we relied heavily on the Saskatraz breeding program. For the past 10 years we have selected only the best from our own stock. We feel our breeding program has produced a bee just about perfect for our prairie climate. With over 2500 hives surviving the winter we can supply just about anything you want. Our bees forage on a range of flowers including

clover, alfalfa, canola, and prairie wildflowers. Our honey has not been filtered or pasteurized leaving you with the maximum flavour of the prairie summer. We can supply bees (4 frame nucs or 10 frame singles), queens or queen cells, and depending on the year up to 400,000 lbs of honey packed in barrels. We are CFIA and FDA approved.

MANITOBA

Ash Apiaries Ltd.

- Bryan Ash 204-548-2036 ext 2221 flash@mymts.net

both 1-10+ containers

Ash Apiaries Ltd. is a family-operated honey producer and processor in Gilbert Plains, Manitoba, about four hours northwest of Winnipeg. The business was founded in 1972, starting with 200 colonies. The apiary has steadily grown to more than 10,000 colonies today, which thrive and produce high quality honey from the crops grown on the fertile rolling hills of Western Manitoba's Heart of the Parkland. In 1989, Ash Apiaries Ltd. expanded and started producing Sunshine Valley natural creamed honey. Creamed honey is 100% pure Canadian honey in a unique format. Our liquid honey is "seeded" with ultra-fine grind granulated canola honey to produce a creamed honey that is pearly-white in colour, spreads like firm butter, and is mild tasting. Ash Apiaries Ltd. continues to process its own brand of Sunshine Valley creamed, liquid, raw honey, and also makes flavoured creamed honey using only 100% pure Canadian honey. The modern processing and packaging plant also provides custom packaging of liquid and creamed honey for retail, wholesale, industrial and private label customers. Ash Apiaries Ltd. is inspected and registered by the Canadian Food Inspection Agency (CFIA). Our commitment to quality and food safety is emphasized through involvement in the Hazard Analysis Critical Control Points (HACCP) system and enhanced by our SQF Quality Code Edition 8.1 certification. The SQF (Safe Quality Food) program is recognized by the Global Food Safety Initiative (GFSI). In addition, Ash Apiaries Ltd. is also True Source Certified.

Summer's Gold – Merlin, ON

Here at The Summer's Gold Honey Company, family isn't everything, it's the ONLY thing. We are strong believers in supporting one another in whatever we do. With that in mind, when Dad, Mike, wanted to return to his passion of beekeeping, the family rallied around him to see his dream come true. Here, just a scant 2 years later we have built a CFIA registered honey processing facility. Located in the quaint village of Merlin Ontario, Summer's Gold Honey Company offers the opportunity to experience a unique blend of small rural village culture and high technology food safety standards. Summer's Gold Honey Company are producers, packers, wholesalers and retailers of some of the finest honey Canada has to offer. We are also proud to offer a line of bee related products produced in conjunction with AETO's Apothecary which is a Health Canada approved laboratory. We strive in every aspect of our business to provide our customers with products that meet or exceed the highest possible standards of cleanliness and quality control. Our son-in law, Jonathan is a member of Canada's armed forces serving in the Air Force, stationed at CFB Petawawa. The yellow ribbon on our label is our way of indicating our support for the brave men and women of Canada's military. Our governments may not always make good decisions but our military deserves our support wherever and whenever they go. Our family's agricultural legacy extends back to some of the earliest settlers to the area with the first of our ancestors settling in Tilbury East in the early 1830's. We take pride in continuing this tradition of producing food for the local community as well as to the larger market, provincially, nationally and to points around the globe. Look for fine Summer's Gold products at your local grocer, health food store, pharmacy as well as through our online ordering system. We KNOW that you will enjoy our offerings every bit as much as we enjoy providing them. There's a little touch of Summer in every drop .

Dutchman's Gold – Carlisle, ON

Contact - Mark Ysseldyk

With almost four decades of experience perfecting the craft of delivering unpasteurized, award winning natural honey to your table, you could say that we've come a long way.

www.dutchmansgold.com

From humble beginnings in 1981, the Van Alten family launched Dutchman's Gold locally, selling bottled honey off the front porch of the family home and in local farmer's markets. We now offer dozens of honey and bee products globally from our two facilities in Ontario Canada and employ dozens from the local community. We remain committed to the health and sustainability of Canadian bees and beekeepers. Our honey is always unpasteurized and processed minimally to preserve as much goodness as possible. We work closely with our beekeepers and partners to ensure integrity is maintained in all of our products. You can take comfort knowing that we are Kosher, Halal, HACCP and Organic certified. Inspected and monitored by the Canadian Food Inspection Agency, we are a licensed SFCA facility (Safe Food for Canadians).
